ABOUT:

SILOSTAY ACCOMMODATION

INNOVATIVE, STYLISH, ENVIROPEOPLE FRIENDLY

UTILISING SUSTAINABLE PRODUCTS, LOCAL RESOURCES AND TALENT; THE HUMBLE GRAIN SILO HAS BEEN CONVERTED INTO MODERN AND UNIQUE SERVICED APARTMENTS.

SILOSTAY LOCATION

Located in the heart of Little River, on State Highway 75, adjacent to the Little River Rail Trail terminus. Just forty five minutes from Christchurch city and its International Airport, and halfway en-route to picturesque Akaroa. Little River – gateway to the world renowned and beautiful Banks Peninsula.

SILO FEATURES

Clever design is evident in all aspects of SiloStay. The ground floor is equipped with a custom fitted kitchenette for all cooking needs, a relaxed chill zone, toilet and external balcony. The stylish and luxurious first floor bedroom, bathroom & balcony are accessed via a sculptural steel staircase. Built for the discerning traveller, each unit has a wall mounted flat screen TV, satellite channels & DVD, bed head mounted Stereo/CD/iPod/MP3, and WiFi internet.

ADNZ/RESENE ARCHITECTURAL DESIGN AWARDS 2014
NATIONAL WINNER - COMMERCIAL INTERIOR CATEGORY
HIGHLY COMMENDED - COMMERCIAL/INDUSTRIAL CATEGORY

SILO LAYOUT

SiloStay Serviced Apartments are designed primarily as a retreat, time out and spring-board for couples. The Accessible Silo caters for disabilities, a couple with up to 2 children, or single companions travelling together.

LOCAL ATTRACTIONS

- Small town peace & serenity
- World renowned surfing at Magnet Bay with its infamous left-hand break
- Cycle or walk the Christchurch - Little River Rail Trail
- Spend a day at the beach swimming or simply admiring abundant wildlife in magnificent Tumbledown Bay & adjacent Te Oka Bay
- Visit Peraki Bay's whaling station monument
- Explore numerous adventure cycleway trails
- Travel on and explore the spectacular wildlife and ecology of the south eastern bays
- Quite Simply the perfect base from which to target the whole Banks Peninsula

ECO-FRIENDLY

SiloStay has been designed and built using innovative eco-friendly systems.

Cocoon yourself in the luxury of NZ sheep's wool insulation, under the floor, in the walls & ceilings. Wood pellets, a waste by-product of NZ's sustainable timber production, are used to heat the units in winter. Passive cooling in summer means simply open the hatch at the top of silo.

Even the 'Biolytix' waste water system is planet friendly. The BioPod harnesses the energy in the waste (including the sewage, toilet paper and food waste) to nourish and feed the worms that break down that waste.

All of the wonderful mood lighting, both within individual silos and the external boardwalks, are energy efficient LED.

STAY SOMEWHERE UNIQUE - ENJOY THE ECO-FRIENDLY SILOSTAY EXPERIENCE, AND EXPLORE THE BEAUTY OF THE RUGGED LANDSCAPE OF THE BANKS PENINSULA REGION
